The meaning of life

For some poor people

More money means more happiness

For some rich people

Money is sometimes just a number

What the poor might have not known

When money reaches a certain level

Happiness does no longer proportionally increase

It seems to have reached a platform

Wealth is more of a responsibility

Not just for enjoyment

Money is not the purpose of life

Happiness originates from interior abundance

The rich also have their troubles

Health do not favor them

Money could not cure every disease

Neither could it buy more time

The wealth that the poor admiring

Having obtained also means a kind of lost

On the bumpy road pursuing for beautiful things

We are facing with the blooming up of real life
