

**a**

- biochemistry
- bioengineering
- bioinformatics
- biophysics
- ecology
- evolutionary biology
- genetics
- genomics
- immunology
- microbiology
- molecular biology
- neuroscience
- pathology
- pharmacology and toxicology
- systems biology

**b**

- allergy and immunology
- anesthesia
- cardiovascular medicine
- emergency medicine
- epidemiology
- gastroenterology
- genetic and genomic medicine
- health economics
- health informatics
- health policy
- health systems and quality improvement
- infectious diseases (except hiv/aids)
- intensive care and critical care medicine
- nephrology
- neurology
- no category recorded
- obstetrics and gynecology
- occupational and environmental health
- oncology
- ophthalmology
- otolaryngology
- palliative medicine
- pediatrics
- pharmacology and therapeutics
- primary care research
- psychiatry and clinical psychology
- public and global health
- radiology and imaging
- respiratory medicine
- sexual and reproductive health
- urology

**c**

- applications
- applied physics
- artificial intelligence
- biomolecules
- cell behavior
- computational finance
- computer vision and pattern recognition
- computers and society
- cryptography and security
- digital libraries
- general economics
- genomics
- human computer interaction
- image and video processing
- information retrieval
- learning
- medical physics
- molecular networks
- other statistics
- physics and society
- physics education
- populations and evolution
- social and information networks
- statistical finance
