

Figure 1. Weekly distribution of the number of confirmed reports of African Swine Fever outbreaks diagnosed in Asia 2018-2019. Reports were made between 1 August 2018 (day 1) and 20 December 2019 (day 507). Data was extracted from the World Organisation for Animal Health (https://www.oie.int/wahis_2/public/wahid.php/Wahidhome/Home).
