Subject: Submit the Corrigendum to "*Existence and exponential decay for a nonlinear wave equation with nonlocal boundary conditions of 2N-point type*" [Math Meth Appl Sci. https://onlinelibrary.wiley.com/doi/10.1002/mma.6773]

Monday, Sep 21, 2020.

Dear Prof. Wolfgang Sprößig,

Today, we write this letter to submit the Corrigendum to our paper [1] (Math Meth Appl Sci. https://onlinelibrary.wiley.com/doi/10.1002/mma.6773). We sincerely apologize for our mistake in the proof of Theorem 4.1 ([1]).

In this note, we present corrections to Proof of Theorem 4.1 related to Lemma 4.3 in [1] (pp. 16), by the fact that Lemma 4.3 is wrong with the functional $I(t)$ defined by (74) of [1].

Please accept our sincere apology.

Best regard,

N. A. Triet - L. T. P. Ngoc - A. P. N. Dinh - N. T. Long
